## Many Changes In State Set-Ups Being Forecast

Personnel Also To Be Great-  
ly Altered By New Ad-  
ministration

### CIVIL SERVICE LAW MAY FACE REVISION

Governor Makes No Public  
Announcement As Yet  
On Changes Con-  
templated

HARRISBURG, Jan. 20.—Sweep-  
ing changes in departmental set-ups  
and personnel, including possible re-  
vision of civil service laws, were con-  
templated today by the James ad-  
ministration.

A complete overhauling of the  
state department of public assistance  
is now being made by the new  
secretary of public assistance, How-  
ard Russell, Gov. Arthur H. James  
revealed, and its civil service set-up  
is being scrutinized.

Patrick F. Naumes, Pittsburgh, a  
deputy secretary of mines for the  
bituminous region, has been dis-  
missed by the new secretary of  
mines, John Ira Thomas, and will  
not be replaced, effecting an annual  
saving of \$15,000, the governor  
stated.

### Changes Contemplated

Other changes being contemplated  
—although Governor James would  
make no categorical statement to that  
effect—apparently included:

1. Changes in the liquor control  
board, which consists of Leo Cros-  
sen, chairman; J. T. Brooks, and  
W. W. Wagner, Brooks and  
Crosen are Earle appointees. Wag-  
ner was appointed by Pinchot and  
reappointed by Earle. Crosen was  
reappointed when his term expired  
but the senate refused last November  
to confirm him. Both posts each  
pay \$10,000 annually.
2. Dismissal of the commissioners  
of registration in Scranton, Phila-  
delphia and Pittsburgh.
3. Changes in the state board of  
censors, the Turnpike commission,  
the general state authority, and the  
publicity commission.
4. Reconsideration of the ap-  
pointment of Henry Hippie, as judge  
of the 20th judicial district (Clinton-  
Cameron-Elk counties).
5. Changes in the following, all  
of whose members failed confirm-

## PA NEW OBSERVES

Norman Smith, of Croton avenue,  
is a staunch supporter of the plan  
to feed the birds during the win-  
ter season. He places food on his  
back porch regularly, which is vis-  
ited by birds of various descriptions.  
A few days ago, a beautiful red bird  
appeared amid the flock, which Mr.  
Smith said, looked a pretty sight.

Many of the churches are elimi-  
nating their evening worship ser-  
vices next Sunday because of the  
high school Baccalaureate.

Two hundred eleven bears were  
killed in Pennsylvania during the  
six-day season, and, according to a  
news release from the game com-  
mission offices, Harrisburg, there are  
plenty left. The small game season  
was by far the best in several years.  
The estimated kill included 2,847,000  
rabbits; 2,000 hares; 729 squirrels;  
40,500 raccoons; 120,000 grouse; 37-  
000 quail; 500,000 ringneck pheas-  
ants; 4,400 wild turkeys; 34,000  
woodcock; 44,000 ducks and geese  
and 120,000 woodchucks.

In the First Baptist church bulle-  
tin for next Sunday will be listed  
the following names of members  
over 80 years old, as compiled by  
David Harris: Mrs. Teresa Mil-

## Plan For Tribute To Capt. R. W. Rowland; New Cabinet Member

As a tribute to Captain Roger W.  
Rowland, in recognition of his ap-  
pointment as Secretary of Property  
and Supplies in the cabinet of Gov-  
ernor Arthur H. James, a testimonial  
dinner will be held in the Cathedral  
on Saturday night, February 4.

A meeting was held in the Castle-  
ton Thursday afternoon by a group  
of friends of Captain Rowland and  
the matter was discussed for a time.  
It was the opinion of those present  
that such a dinner was highly prop-  
er at this time and State Commit-  
teeman Ivor V. Davis, was asked to  
head the affair as general chairman.  
Ivor Richards is the secretary.

## Guam Is Seen As Wedge For Showdown With Japan

(BULLETIN)  
(International News Service)  
WASHINGTON, Jan. 20.—Presi-  
dent Roosevelt today ap-  
proved the Navy's plan to spend  
\$5,000,000 dredging the harbor  
of Guam and making other  
military improvements.

The executive indicated that the  
congressional authorization of  
this amount was being made  
without any thought of negoti-  
ations with Japan, although it  
was recalled to him at his press  
conference that an earlier move  
to make a big naval base of  
Guam resulted in the calling of  
the 1922 arms conference.

WASHINGTON, Jan. 20.—The  
question of how far the United  
States will go toward fortifying  
Guam today rested with congress  
today, but to members of both  
houses it became increasingly plain  
that the administration intends to  
use the tiny Pacific Island as the  
wedge for an ultimate showdown  
with Japan.

ed by class festivities.

## Steal Coal From Rural School House

Thieves Back Up Big Truck  
And Make Off With Cotton  
School Coal Supply

Report has been made to County  
Superintendent of Schools John C.  
Sylvester, that thieves backed a large  
truck up to the coal shed of the  
Cotton school in Pulaski township,  
located about a half mile off the  
New Wilmington-Pulaski road, Wednes-  
day night, making off with the school's  
supply.

Enough coal was left to run the  
school on the next day, but several  
tons of coal were secured by the cul-  
prits. Police authorities in the coun-  
ty have been notified.

Unable to break the lock, the  
thieves pried off the hasp which se-  
cured the lock gaining an entrance  
in this manner.

Will More Than Match Any  
French Intervention Brit-

### INSURGENTS ARE STILL ADVANCING

Insurgents Claim Govern-  
ment Forces Are Retreat-  
ing On Five Fronts

(BULLETIN)  
(International News Service)

SARAGOSSA, Spain, Jan. 20.—  
The imminent fall of Barcelo-  
na was indicated today in an  
official statement by insurgent  
headquarters here.

LONDON, Jan. 20.—An  
emphatic warning that Italy  
will more than match any  
French intervention in the  
Spanish war has been de-  
livered to Britain by the  
Italian government, it was  
revealed today.

International News Service learned  
that when Italian Foreign Min-  
ister Count Galeazzo Ciano received  
British Ambassador Lord Perth  
Wednesday evening, he made plain  
the Italian position on this matter.

If reports regarding the possibi-  
lity of France sending troops to aid  
the Spanish government ever should  
materialize, Ciano declared, Italy  
will immediately dispatch an over-  
whelmingly superior force to the  
aid of the Insurgents.

### Moroccan Troops In Battle

Saragossa, Spain, Jan. 20.—With  
Moroccan troops now in the thick  
of the fight, insurgent forces have  
captured five more villages in Cat-  
alonia and the government armies  
are retreating on all fronts, Insur-  
gent field messages said today.

Advancing from six to nine miles  
in a day, the Insurgents, fighting  
on a 50-mile front, took Torrefeta,  
Cunil, Llor, Laguardia, and San  
Martin, it was asserted here.

Generalissimo Franco's troops now  
are five miles from Igualada, im-  
portant road junction, five miles  
from Vendrell, on the coastal route  
to Barcelona, and 15 miles from  
the railway center of Manresa.

### Advance Toward Barcelona

Barcelona, Jan. 20.—Generalissimo  
Francisco Franco's troops are ad-  
vancing in certain sections of the  
Catalan front in their drive against  
Barcelona, government authorities  
admitted today, but they hotly de-  
nied that the situation has provoked  
"disturbances" in the provisional  
capital.

Street Cars Will Cease Op-  
eration On Croton Line  
Saturday Night

picture on the Croton avenue line on

tation service was announced today

lowing the recent order of the Public

sanctioning the change in service.

the change from street car to bus.

## Showdown Near On W. P. A. Fund

Agitation Increases In Con-  
gress For Some Compro-  
mise Measures

### PONDER PROPOSALS BEFORE COMMITTEE

(International News Service)  
WASHINGTON, Jan. 20.—A show-  
down in the senate appropriations  
subcommittee on the pending WPA  
emergency fund allotment appeared  
likely today as agitation increased  
for a compromise.

With President Roosevelt recom-  
mending an allowance of \$875,000-  
000 to continue the WPA program  
until June 30, and the house having  
reduced the amount to \$725,000,000  
the subcommittee considered a pro-  
posal to allot \$366,000,000 for two  
months. During these two months  
—February 7 to April 7—an investi-  
gation of relief needs would be made  
by the house and senate appropri-  
ations committees.

There would be no decrease in the  
3,000,000 persons on the work-  
relief roll during the two months,  
but they would receive pay of \$61 a  
month, compared with a present  
average of \$62.

Another compromise suggestion  
was that the Woodruff house  
amendment, which would require  
the spreading of relief funds over a  
specified period, be repealed. In  
that event, the administration could  
spend all of the appropriation, if  
necessary, and return to congress for  
more money.

Administration leaders claimed  
they were gaining recruits for the  
\$875,000,000. They said pressure was  
being directed upon senators from  
their constituents. A close vote in  
the senate was forecast.

## Killer Of Wife Battles Death From Injuries

(International News Service)  
MIAMI, Fla., Jan. 20.—Paul H.  
Mardoff, one-time prominent  
Brownsville, Pa., printer, who was  
struck by a truck early this week  
as he fled from his home after ad-  
mittedly stabbing his wife to death  
with an ancient Chinese dagger, to-  
day continued to battle for his life  
in an oxygen tent in a Miami hospi-  
tal.

"His condition is still critical," it  
was said at the hospital. He suf-  
fered a collapsed lung, among other  
injuries.

## Gag That Turned Into Riches

SHEP FIELDS AND MRS. MYRA WALLACE

That \$10,000 "fake" treasury note gag of Mrs. Myra Wallace, wife  
of a music publisher, played on Shep Fields, the orchestra leader, in Los  
Angeles, ends happily for the two as they depart from the federal build-  
ing with a receipt for \$10,000. Mrs. Wallace had given Fields the note,  
which she found on a New York street, as a gag. Fields thought it was  
counterfeit, too, but made sure by taking it to the treasury. Officials  
said the note had long been sought by government agents after it was  
thrown out of a federal building in Washington in 1934 by a fireman dur-  
ing a fire.

their president, Glenn Gordon,

## Action Forecasts Drastic Changes In Reich's Set-Up

Also Terminates Negotia-  
tions With George Rub-

Question

### BRITISH AROUSED BY HITLER'S MOVE

Economic And Financial  
Changes In Reich's Set-  
Up Are Presaged  
By Action

By PIERRE J. HUSS  
International News Service Staff  
Correspondent

BERLIN, Jan. 20.—Com-  
pletely disorganizing interna-  
tional efforts to solve the  
acute problem of Jewish  
emigration from Germany,  
Reichsfuehrer Adolf Hitler  
today removed Dr. Hjalmar  
Schacht from the presidency  
of the Reichsbank in a move  
foreshadowing drastic  
changes in the Reich's eco-  
nomic and financial setup.

Schacht will remain a member of  
Hitler's cabinet, being kept on hand  
for "special assignments."

The Fuehrer's order brought to a  
sudden end the negotiations between  
Dr. Schacht and George Rublee,  
American director of the interna-  
tional refugee conference, at the  
very moment a workable agreement  
on the Jewish question appeared to be  
in sight.

### Replaced By Funk

Schacht was replaced as president  
of the Reichsbank by Dr. Walter  
Funk, who will also retain his old  
post as minister of economics. Funk,  
leading protagonist of German trade  
and financial expansion in eastern  
Europe, will thus be endowed with  
the joint fiscal and governmental  
powers once enjoyed by Dr. Schacht  
himself.

Dr. Schacht for years held these  
two important posts, but was removed  
from the economic ministry

## Believe Thieves Set Barn Afire

Loss Of Around \$4,000 Sus-  
tained In Blaze On Old  
Pittsburgh Road

Fire, which is believed to have  
been started by thieves stealing oats  
from the barn of William Stephano,  
of the Old Pittsburgh road, near the  
antenna tower of Station WGST, re-  
sulted in destruction of the barn  
shortly before 11 o'clock Thursday  
night, with a loss of around \$4,000  
only partly covered by insurance.

The blaze was discovered by  
Richard Stephano, a son, who was  
just getting ready for bed, the rest  
of the family having retired. He  
ran to the blazing structure and  
succeeded in getting out 25 head of  
cattle and a horse. The barn and  
all the rest of the contents was  
destroyed.

A trail of oats, which led from  
the barn down the lane to a road,  
leads Mr. Stephano to believe that  
thieves were stealing oats from the  
barn and started the blaze. All of  
last summer's crops, and some farm  
machinery were destroyed.

The barn was a large structure of  
the bank type.

### Arthur Mometer

The travelin' urge has got him  
and he yearns to get away, and I  
can't say that I blame him for its  
thirty one today and the winter has  
us stymied with his icy coat of mail  
folks have lost their summer tan-  
ned look and are getting kinder  
pale. So he's going to fool the win-  
ter and be off to other climes, and  
he rates a long vacation, ought to  
take them many times. He'll be  
tolling in the sunshine while the  
rest of us are chilly, but a chap who  
can and doesn't go I'd think was  
downright silly.

# Railroad Relief Bills Are Framed

## Senator Will Present Bills

Hope To Provide Relief For Sorely Stricken Railroads Of Nation

## WHEELER CONFERS WITH PRESIDENT

(International News Service) WASHINGTON, Jan. 20.—Senator Burton K. Wheeler (D-Montana) chairman of the Senate Interstate Commerce Committee, announced today following a conference with President Roosevelt that he would introduce a series of bills next week designed to give relief to the sorely-stricken railroads of the nation.

One measure Senator Wheeler will sponsor would permit voluntary piecemeal consolidations without respect to any national plan. The senator added that he would insert a proviso requiring that the roads take care of labor in any such mergers.

Another would be designed to simplify railroad reorganization. Wheeler was accompanied to the White House by Rep. Clarence F. Lea (D-California), chairman of the House Interstate Commerce committee.

To Begin Hearings Lea said his committee would begin hearings on a proposed transportation bill next Tuesday which probably will run several weeks. A subcommittee will then be appointed to draft specific legislation.

"I think our side will act this session," Lea said. Wheeler said he was still opposed to repeal of the long and short haul provision.

The senator said he "supposed" some one would introduce a measure eliminating preferential "land grant" rates now granted the government.

Lea has already introduced a bill in the house designed to effect broad rehabilitation of the railroads. His measure carried a ten-point program of reorganization of the various government agencies, laws, rules and regulations affecting the carriers.

Basically, the Lea bill called for a new \$300,000,000 loan program for the railroads, and complete reorganization of the Interstate Commerce Commission as a super-rate making body.

(Continued From Page One) Stafful, Lenora Christy, Jane Bollinger, Vera Sweet, Ruthe Fullwood, Sara Saccomanni, Marion Duff and Louise Kerr. The group was accompanied by Miss Betty Alexander, Marian Wimer, Kay Pander and Mary Louise Meehan were featured as a trio singing "A Tisket, A Tasket." A Dippy Ditty was presented next by Harvey Lewis and Jane Haven.

A plain and fancy exhibition of roller skating was given by Ed Hutchinson. "Your As Pretty As A Picture" was sung by Mary Louise Meehan. Picking on the faculty as well as the students, Joe Hunter very skillfully filled the roll of class knocker.

Accordion Solo Ray Ludovici was featured in an accordion solo and was followed by a combination tap dance and xylophone solo by Hulda Boak and Doretha Stewart.

Louis Walls presented the class

prophecy, telling of the future destinies of each member of the class. Jane Rhodes, Edwina Rauh, Barbara Yoho and Marie Cray sang two selections.

Marian Wimer left everything in the school, including the dirt on the floors to some member of a lower class, in her role of presenting the class will.

Program was brought to a close in the typical fashion with Glenn Gordon, graduating president, presenting the traditional axe to Merritt Reynolds, president of the Senior B class.

Those responsible for the success of the program included Miss Virginia Weinschenk, supervisor of the class, and the following committee: Lydia Castrucci, chairman; Louis Walls, Ruth Payne, David Fehl and Harvey Louis.

At the close of the program in the high school, the seniors departed for the New Castle Field club, where they spent the afternoon in a party frolic.

## GUAM SEEN AS WEDGE FOR SHOWDOWN

(Continued From Page One)

island for an air and submarine base, congressional defense spokesmen professed to see these facts emerging.

1. That all the navy has asked is an authorization for a \$5,000,000 program that will prepare the Pacific outpost for fortification by 1943 if it is then deemed necessary.

2. That the \$5,000,000 authorization sought for channel dredging, construction of hangars, shops and a breakwater will go far toward preparing the island for eventual fortification, but to actually make Guam a major defensive outpost in the Far East would require many millions of dollars more.

3. That while the proposal has the full approval of President Roosevelt, the White House throughout the controversy over Guam has steadfastly disowned the word "fortification," the president himself going to considerable lengths to point out that no appropriation for fortifications has been asked.

4. But, because of the strategic location of Guam, midway in Japan's mandated islands and less than 1,400 air miles from Tokyo, the preliminary steps, if approved by congress, may supply the lever to bring the Nipponese to terms on American rights in the Pacific.

Whether this is the whole story behind the controversial move by the navy, congress expects to learn next week. On Wednesday, Admiral William D. Leahy, chief of naval operations, and Rear Admiral Arthur H. Hepburn, author of the plan to establish new air bases at Guam and eleven other key Pacific and Atlantic points, will appear before the House Naval Affairs committee to testify.

Thawing and freezing weather of the past week or two has resulted in quite a magnificent display of icicles on some buildings around the city. Likewise, there is an element of danger for pedestrians, if any of the large icicles happen to fall while they are passing.

Today is class day for the January class of the senior high school. Next week another large class will be graduated from the school, approximately 210 students being added to the alumni rolls at that time.

Some person had carelessly thrown some banana peels on the sidewalk, this morning, near the local post office. It would be well for people to realize that it is treacherous for pedestrians to step on these banana skins, often causing them to fall, and sustain serious injury. Should folks notice danger of this kind, it would be a service to the general public to remove it.

An official communiqué stated Franco's forces are still being held off twelve and a half miles from Igualada, which lies 35 miles northwest of Barcelona. Home Affairs Minister Paulino Gomez, discussing the crisis with this correspondent, emphatically scoffed at reports of panicky disturbances in Barcelona in the face of the insurgent advance.

## Discusses Tax Situation

An interesting report on the results of the Eighth Grade tests recently held in the county schools was given by Assistant County Superintendent Roy F. Conway.

County Superintendent John C. Syling discussed the tax situation, and informed the directors that all unpaid taxes must be filed with the county commissioners on the first Monday in May, otherwise they must be filed in the prothonotary's office, which adds to the expense and lessens the amount the districts can receive when ultimately paid.

A new law passed at the last session of the legislature permits an adjustment, with the consent of the court, where the taxes, penalties, and interest against real property is greater than could be realized at a tax sale of the property. This applies only to school districts.

Music during the sessions was furnished by the Shenango Township Consolidated school pupils under the direction of Edward A. Roncome, director of music.

### SPAIN AND FRANCE

It is not without reason that the French government views with anxiety the steady progress of General Franco toward the most important of his current objectives—Barcelona. The resistance of the Loyalist armies, depleted in numbers and hard-pressed for food and supplies, seems unable to stop the fascists. After two and one-half years of valiant resistance, the end seems to be close at hand.

And when it comes, what will the results be? Insofar as the Spanish people are concerned, the future is as dismal as the past. Throughout the modern history of Spain its masses have lived on intimate terms with misery. They have as a matter of tradition known the seamy side of life. Presumably, the thread of existence in Spain will be taken up again where it was broken by the abdication of Alfonso.

The effect on Europe as a whole is certain to be momentous. General Franco is a satellite of Il Duce. If he proves to be a conqueror his triumph will have been achieved largely through the aid in men, in money and supplies received from Italy and Germany. Madrid, then, will become another link of the Berlin-Rome axis.

Along the Pyrenees frontier, accordingly, France will have a potential enemy one capable of providing an important distraction if France should become involved on the Italian or the German borders. Another step will have been taken toward fulfillment of the vital purpose of ringing France around with enemies.

### THE TRAFFIC LIGHT JITTERS

"A quickening of the pulse by 25 beats above normal, a tightening response of the forearms, a dryness of the mouth, a sudden excessive sweating of the palms, a feeling of digestive distress, a sensation of inward tremulousness and observable tremor of extended hands."

These might seem, offhand, like the reaction of a condemned criminal seated in an electric chair and waiting for the switch to be turned. Actually they are the jittery responses an experimenting psychologist noted in himself when he ran into a traffic light. What his feelings would have been had he run into a traffic cop can only be imagined.

It is the good doctor's belief that the present type of traffic light promotes an "anxiety neurosis" in motorists. He would remedy this lamentable condition by a new device, similar to a clock, with a large lighted hand turning slowly to the green, for go, and the red, for stop. The Swiss and Russians, he assures us, are trying such an apparatus.

Confronted with a gadget of this sort at an intersection, many a motorist would probably compare it with his wristwatch, decide the "clock" was wrong and keep right on going.

### UNCALLED-FOR BLUES

Intelligent Americans have long deplored the flag-waving, eagle-screaming brand of patriotism, but they approve the current movement to call attention to our country's worth and beauty, to awaken love of its virtues and eagerness to correct its faults.

What's the matter with America? Very little, when you get right down to it, and nothing that can't be changed for the better if we set about the task with a will. Unemployment, poverty, ignorance and disease we have, but nobody accepts them as inevitable or permanent. The final answers have been found for none of them, but progress is made toward finding them. Over against those evils we have opportunity, social welfare work, free public education and health institutions, not perfect in achievement, but steadily advancing in theory and practice. Freedom and justice for all, however we may fall short of them, are yet the steady goals toward which we work.

Along with out great social and spiritual foundations, we have the material foundation of natural resources, varied climate and scene, beauties of nature unsurpassed.

A recently returned American traveler expresses surprise to find citizens here "so blue." It is a rather silly attitude for anyone in the United States of America in the year 1939.

### ANOTHER TRY AT TEXTUAL MATRIMONY

University courses in matrimony have now extended to Pennsylvania State College, and, as is usually the case, the Juniors and Seniors eligible for this particularized study will probably benefit at least as much as if they spent the time on astronomy. Also, it is hardly strange that such courses have been initiated chiefly by women's colleges, like Vassar, and co-ed schools and that most matriculants are women.

Dr. Kingsley Davis, in charge of this program at Penn State, modestly concedes that "the course is not intended to be a panacea. We do not pretend it will be a solution to everyone's problem." That, incidentally, is a reasonable conception of the limitations of any academic course.

The Penn State syllabus will follow the modern routine in coaching on family budgeting and management of household funds. Perhaps a little instruction will be given enrolled potential husbands on how to earn and bring home such funds—an important point in these times. How to keep relatives from becoming permanent boarders might also be a fruitful theme.

However, the promised instruction in how to select mates will be handicapped from the start by its sheer logic and doubtless prove just another plausible textual theory buffeted roundly by facts asserts the Philadelphia Inquirer. Moonlight still has its own undocumentated but convincing instruction in mate-choice, while there are many men (and, occasionally, a woman) for whom the most thorough tutelage in mate-sharing would be in vain.

### APT ADVICE FOR FATHER

A great many dads, thanks to the demands of business, are well groomed at work. Some of these very same ones may, however, be very lax about their dress and personal cleanliness and tidiness at home.

Usually it is the mother who holds up the standards in these matters in the family. This is especially so, as a rule, in the farm home and other homes whose bread winners don't wear white collars to work. Perhaps her being a woman renders her more sensitive to refinement. Besides, newspaper columns and magazines she has read for years have kept reminding her that she should be forever keeping herself looking well at home, especially in the presence of her husband.

Franklin's Impression  
It's too bad that Benjamin Franklin could not be alive today and drop into an average American home and observe the dainty, neat and tidy housewife there. After that, if he again wrote his "Reflections on Courtship and Marriage," he hardly would write as he did under this title in 1746. To quote:

"Let us survey the morning dress of some women. Downstairs they come, pulling up their ungartered, dirty stockings; slippers, with naked heels peeping out... no stays or other decent convenience, but all flip-flop; a sort of a clout thrown about the neck, without form or decency; a tumbled, discoloured mob or nightcap, half on and half off, with the frowzy hair hanging in sweaty ringlets, staring like Medusa with her serpents; strutting up her petticoats, that are sweeping the ground and scarce tied on; hands unwashed, teeth furred, and eyes crusted—but I beg your pardon, I'll go no farther with this sluttish picture, which I am afraid has already turned your stomach."

### Women More Advanced

But most men at home may not have advanced so far in personal tidiness as have women. Some, of course, have.

Fortunate is the wife and children in the home where the father always shaves for breakfast and bathes and "dresses" for dinner. He brings an atmosphere of cheer and freshness to the dinner group. The very trouble he goes to in order to look his best while mingling with the family suggests to them his deep consideration for their personalities.

I do admire those dads who, coming into the house from the barn, field or factory, make a beeline for the bathroom and scrub up and put on fresh clothing to the skin. The little time spent at this proper grooming contributes more to family happiness than they realize.

## The World AND THE Mud Puddles

### GET BUSY, HARRY

It is a principle of American sportsmanship that a man tackling a tough problem be given a cheer of encouragement and a chance to "show his stuff" before any "boos" are sounded. As WPA administrator, Harry Hopkins has been accorded both cheers and "boos" in great plenty. As the Nation's new Secretary of Commerce, the American people, irrespective of political loyalties, wish Mr. Hopkins success and hope he delivers.

Right off, Secretary Hopkins announces a drive to create a "re-employment" psychology among business leaders, large and small, with a view of transferring a vast army of workers from WPA payrolls to the payrolls of private industry.

That objective is laudable, is assuredly in line with the attitude of industrialists—wary of the excess tax drain for WPA funds—and the possibilities are limitless. An excess of workers because of overproduction is often talked of. But of America's 32,000,000 families, one-fourth have no automobiles, scarcely more than half have telephones, one-fifth no radios, more than half no electric refrigerators, one-third no access to electricity, nearly one-fifth no bathtubs!

Overproduction? Hardly! Furthermore, WPA "made" work is virtually sterile with regard to supplying those needs. The labor of private enterprise, as always, must produce the wealth-creating goods that bring necessities and comforts to the American home.

The new Secretary of Commerce seems started on the right track, and if he sticks to it, America's business men will meet him halfway—and then some!

## What's What At A Glance

Spanish Situation Worries  
Totalitarians Gain Foothold  
U. S. Opinion In Matter Is Split

By CHARLES P. STEWART  
Central Press Columnist

WASHINGTON, D. C., Jan. 20.—American naval authorities are more than a little worried by rebel gains in Spain recently.

Yankee public opinion probably is split something like 50-50 as between the Spanish so-called insurgents under General Franco and the so-called loyalists—the official government's outfit.

Our pro-Franco sympathizers take this view:

The revolution which overthrew King Alfonso perhaps had considerable justification, but very shortly after that communists, inspired and financed from Moscow, gained Spanish control and have perpetrated all sorts of atrocities. The Franco-ites mission is to reestablish the short-lived post-revolutionary Iberian democracy.

Our pro-loyalist faction argues thus:

Alfonso's regime was a very bad one. It was upset by good liberals. The current revolt against them was started and still is backed by Mussolini and Hitler. Bad as Communism is, it is not any worse than Fascism or Nazism. And anyway, Communism hasn't much of a foothold in Spain, whereas Fascism and Nazism are dug in like sixty.

I am not reasoning one way or the other; our two schools of thought are what I am trying to speak for, one against the other and contrariwise.

Opposing Sympathies  
Now, these are just opposing sympathies. They do not mean much materially. Spain, after all, is a distant and rather small country. The average American's interest in the matter is not acute, so far as he knows.

The state department's interest, however, is acute.

So is the navy department's. As to the state department:

We certainly are concerned in Latin America. And Latin America is mainly Spanish. If Spain goes totalitarian, Latin America is likely to take the same direction. Brazil is not Spanish; it is Portuguese. But Portugal inclines totalitarian also.

A totalitarian Latin America as a whole would be a first to Uncle Sam—not alone to his state department but to his commerce department likewise.

But as to the navy department? Well, the U. S. navy is supposed to defend our entire western hemisphere, coast and to do it easily, because it is so much nearer to the U. S. A. than possible Europe is.

Closer Than Realized  
But is it? Not by a darned sight. We are accustomed to thinking of South America as due south of us.

Look at a globe! It quickly will appear that the South American east coast is nearer to Europe below the Equator than we are. The continents are so skew-hawed globularly as to give an advantage against us Europeanly.

International chat at present hints at a German naval base at the Azores islands. Those Azores are closer than Key West to the nearest far-eastern South American port of Pernambuco, and still nearer to farther South American east port harbors.

The Azores, to be sure, are Portuguese. But if Germany through Spain, grabs the Canaries, it will beat us to southern South America (east coast) by 25 percent.

Dr. Fernando de los Rios, loyalist Spanish ambassador in Washington, has rubbed this notion in as thoroughly as he could.

He has convinced our navy. Our sea police do not want a potentially hostile base as near to us as the Azores or the Canaries.

The army is not so immediately interested.

A man in New York contemplating suicide selected a building with an elevator but when he got to the top he was too tired to jump.

OFF THE KEY VOCALIST  
I've often wondered as the song of cardinals I've heard.

Why it is not the same with man as 'tis with singing bird?

All cardinals wear the self-same coat and have the scarlet wing.

But what emphatically I note, all cardinals can sing.

Endowed alike with certain gifts are all the feathered clan.

But things are very different with the creature known as man.

Some men can sing in baritone and some in rumbling bass.

But some, like me, are born to be a nuisance round the place.

Some men can take the tenor parts, and some are doomed like me.

To go through life with voices loud, but never on the key.

And this I wonder, what it is—what difference great or small—

Which gives the art of song to some and other none at all.

When I was but a boy in school the singing teacher said:

"We'll let the others sing the songs; you clean the boards instead."

When I burst forth in hymns of praise in church the people stare.

As if some burro from the fields unseen had entered there.

And yet so fond of song am I it seems a curious thing.

If one man has the gift of song why all men cannot sing.

## The Great Game Of Politics

By FRANK R. KENT  
(Copyright, 1938)

### The Hopkins Ballyhoo

WASHINGTON, Jan. 20.

IF the interesting effort to build Mr. Harry Hopkins, newly appointed Secretary of Commerce, up into a solid and reassuring figure in whom businessmen will confide and in whose behalf his influence will be benevolently exerted—if that effort has begun to bog down, it is not the fault of the Administration propagandists.

CERTAINLY they have done their best. The basic cause of the failure can be traced back to that trenchant, ancient but still appallingly accurate saying, to wit, that "you cannot make a silk purse out of a sow's ear."

While it is true that an extraordinary concentration of the New Deal political and publicity forces succeeded in pulling him through a hearing where the clarity of his memory about not having uttered his famous spend, spend, tax, tax, elect, elect remark was only equaled by the amazing foginess which made him uncertain that he had ever said, among other things, that "Upon Sinclair is 'one of us,' or that he had ever been enrolled as a Socialist—nevertheless, the Senate gauntlet rubbed off a good deal of the grease with which the heroic Harry had been anointed.

HE will enter upon his new job with the White House journalistic reflectors almost tearfully insisting upon his noble personal character, and many admirable qualities of mind and heart. The chorus, however, is a little too loud; his synthetic nature slightly too apparent; the butter much too thick. Mr. Hopkins' WPA record, Mr. Hopkins' testimony and the points made about Mr. Hopkins in the Senate and outside stand him out far too clearly to permit the picture to be blurred by propaganda or the actual facts to be hidden from the people as a whole.

OUTSTANDING among these is that Mr. Hopkins was not taken from the WPA and put into the Cabinet as a deserved promotion, but to get him out of a job which he had badly botched and into a place where he would be out of the line of fire. That is the plain truth and there isn't an informed man in Washington who does not know it.

As for the botching, the evidence—some of it provided by Mr. Hopkins himself—is overwhelming and convincing. As he leaves, Congress prepares to dismantle and revamp the whole relief setup. It does this after the political saturation of the WPA has been disclosed by a Senate committee, and partially admitted by Mr. Hopkins after it has been denounced by both Democrats and Republicans, and after public sentiment has reached the limit of tolerance.

THE JOB of forming a new system of relief administration, about to be tackled by Congress, is not recommended either by the President or Mr. Hopkins. On the contrary, neither has as yet made the slightest "constructive suggestion," and until Mr. Hopkins admitted certain things on the stand, including his own mistaken political activities, the attitude of both had been that WPA was without a flaw and that all charges were partisan and unfounded. The situation as

## Jack Benny's Trial May Be Delayed

Will Probably Be Postponed  
For Week From Tuesday  
In New York

(International News Service)  
NEW YORK, Jan. 20.—Radio comedian Jack Benny probably won't go on trial on smuggling charges for at least a week following his scheduled appearance Tuesday in federal court.

The defense plans to present witnesses from Paris to support Benny's plea he did not conspire with Albert N. Chaperau, self-styled Nicaraguan diplomatic representative, to evade duties on imported jewelry. Prosecutors said they were willing to postpone the trial opening for "any reasonable period."

Benny's lawyer believed there was little possibility the comedian might follow the lead of George Burns, another radio star accused in the case and plead guilty.

Meanwhile, the hunt for duty evaders continued with announcement that one offender had voluntarily surrendered \$10,000 in smuggled gems. Investigators would not identify the person but indicated several other individuals whose names have been thus far mentioned in the inquiry were due for early questioning.

## Schwab To Close Loretto Estate

(International News Service)  
JOHNSTOWN, Pa., Jan. 20.—Charles M. Schwab, steel master, is preparing to close the big estate, "Immergrun," located at Loretto, Cambria county, it was learned today.

"Immergrun" consists of 990 acres and 18 buildings, including the huge Schwab mansion. Its assessed valuation for county purposes is \$343,280.70.

Employees at the estate will be dismissed February 1, it was disclosed. Schwab's decision to close the estate came after his wife's death last week, according to friends, who claimed he kept the estate open during Mrs. Schwab's lifetime for sentimental reasons.

## POLICE SEEKING POWERFUL THIEF

(International News Service)  
LOS ANGELES, Jan. 20.—What the police want to know, is happening to those manhole covers in the south-east section of town? Somebody must be taking them, that much is sure. Some thieves, perhaps, with the legendary power of Paul Bunyan.

So now all officers have been warned to be on the lookout for persons lugging a 100-pound manhole cover around.

Authorities said they believed thieves are stealing the covers, then breaking them up to be sold for junk.

## The Human Side Of The News

(By EDWIN C. HILL)

Copyright 1939 King Features Syndicate, Inc.

In a London theatre in 1898, two aging men of distinguished appearance answer the clamor of the audience and step on the stage. They are the heroes of the occasion but they do not bow, do not speak or shake hands. They eye each other coldly for a moment and walk from the stage, right and left.

So passed Gilbert and Sullivan, in cut-aways and Dandies, forever from the public view, but their tuneful librettos or lyrics which have come rippling on down through the years to the joyous D'Oyly Carte Gilbert and Sullivan fiesta in New York, with the Savoyards delicious as usual, with the fame of the two crotchety geniuses sunk deep into another century and still mounting. They coldly and formally forewore all dealings with each other but the world would not have it so. They are forever linked in an enchantment which each new generation finds perennially young.

It was a row over a carpet which ended their collaboration of more than twenty years. If anybody ever eviscerated stuffed shirts, debunked pride and pretense, tripped the haughty and pretentious, it was Sir Arthur S. Sullivan and William S. Gilbert. But they seemed to lose their salutary humor and satire in personal relation. None of their chesty admirals or overblown constables could have been any stuffer than they were in their marathon

best offerings. His first casual association with Gilbert, in an unpretentious piece put on in the shabby Opera Comique, an underground theatre, started their vogue, which kept on growing until the astute D'Oyly Carte became their producer and built the Savoy theatre for them in 1877—whence the name Savoyard.

As their fame grew, the more embittered Sullivan became. He must have felt like an unsuccessful Hamlet finally winning success as he teamed up with a hooper. This discontent was further fanned up when Queen Victoria, who had appeared to think that some of the Gilbert and Sullivan offerings were not as decorous as they should be, sent word to Sullivan that he should turn to serious work, with Gilbert always dissenting, brought them to communicating mostly by letters which were as formal and stilted as a diplomatic interchange on the verge of war. On one occasion Gilbert, replying to Sullivan, wrote:

"The more reckless and fantastic the libretto, the better the piece always has succeeded."

D'Oyly Carte was driven half mad trying to keep them together. In 1890 their "Gondoliers" was a smash hit. Carte always deducted expenses before the three-way split. An item for a new carpet for the lobby caused a loud protest from

Gilbert. Sullivan sided with Carte. On May 5 of that year, Sullivan wrote a bitter letter dissolving the partnership. Sullivan wrote his grand opera, and it was a resounding flop. They each got other collaborators, but the old magic was gone. Gilbert and Sullivan were like a mysterious chemical formula. Or, to put it differently, there was an omelet which, happily, never can be unscrambled. Their apple of discord is well forgotten in their legacy of joy to all who came thereafter.

## Mrs. J. C. Fulton Preaching Sunday

On Sunday morning, January 22, at the 10 o'clock worship hour in the Plaingrove U. P. church, Mrs. J. C. Fulton will deliver an object sermon on the subject, "Good and Bad Habits." She will be assisted in the presentation by Ansel Seth.

She will also speak at the Slippery Rock U. P. church at Moore's Corners at 11:15 and will be assisted by Frank Cross.

Mrs. Fulton has been filling the pulpit of these churches during the illness of the pastor, Rev. Fulton, who has been confined to his home since December 19 with phlebitis. The pastor will be unable to resume his work for perhaps another month.

## DAILY DOZEN

(From the Medical Society of the State of Pennsylvania)

Scarlet fever is a dangerous disease.

It is one of the communicable diseases of childhood. Communicated from one to another.

It has a short two to six day incubation period. Symptoms are sore throat, fever and sometimes vomiting. The rash appears on about the second day, and lasts two or three days.

An uncomplicated attack lasts from 10 to 20 days. Many serious complications may follow scarlet fever.

The scarlet fever germ attacks the upper air passages. In severe cases it penetrates the mucous membrane.

Then it invades neck glands, blood stream or middle ear. Care is ever necessary to prevent complications.

The aquatic whirligig beetle has a pair of eyes so divided that half of the eye is directed up to keep a lookout for danger from above, while the other half is scanning the water in search of prey.

## Woman Tells How It Feels To Be "Dead"

Woman Whose Heart Stopped Beating For Five Minutes Thanks God

Doctor And Nurse Given Credit For Restoring Life To Asthmatic Sufferer

By JANE COCHRAN  
International News Service Staff Correspondent

NEW YORK, Jan. 20.—"It was like a beautiful sleep. I felt nothing, knew nothing. I was amazed when they told me I had been 'dead' for five minutes."

That was the fraction today of Mrs. Bella Futterman, the Bronx housewife whose heart stopped beating for five minutes until it was coaxed back into action with injections of the powerful adrenalin, artificial respiration and inhalators.

To Dr. Maurice Roy Goodwin and nurse Mathilda Pinsker went full credit for the medical miracle which restored an apparently dead woman to life.

"Can't Believe It  
"I still believe that I am going to live," Mrs. Futterman said today. "It's all too good to be true. What happened to me is proof that everyone has to believe there is a God."

Mrs. Futterman was talking to her children in her apartment shortly after midnight Tuesday when she toppled off the sofa, unconscious from an asthmatic attack.

Four minutes after he was summoned Dr. Goodwin arrived, and finding no trace of heart action or breathing, pronounced her dead. Not waiting to remove his overcoat, he started artificial respiration.

Adrenalin was injected into Mrs. Futterman's heart by Mathilda Pinsker, a nurse living in the building. A police emergency squad was summoned, but before its arrival Mrs. Futterman breathed faintly.

To aid her feeble fight for life, inhalators were used and she was given oxygen for several hours. Her breathing became normal only after three tanks of oxygen were used.

Regains Consciousness  
She returned to consciousness while she was being removed from the floor to the sofa and asked:

"Where are you taking me? Are you trying to take me away from my children?" Then lapsed again into unconsciousness.

"The doctor is wonderful," Mrs. Futterman said. "I told him I had an attack and then fainted. It was not until last night they told me I had been dead."

Dr. Goodwin, a graduate of the

University at Graz, Austria is convinced that he restored life to a woman already dead.

"There was no heart action, no pulse, and she was cold," he said. "I'm convinced that she was dead and it's a miracle that happens once in ten lifetimes."

God Was Wonderful  
"God was wonderful to me," Mrs. Futterman remarked. "I was allowed to come back to take care of my husband and children. I pleaded with them to take care of themselves, and especially my baby Sammie, when I thought I was going to die. But now I can do it."

She has suffered several previous attacks but none so serious and she cannot entirely recover in this climate. She must go to some dry climate, preferably Arizona, before she can regain her health.

"It seems so good to be alive," she said. "I can never thank the nurse and police enough and my neighbors have been so kind."

mind, but was evolved by the slick palace politicians, of whom he is one, as a way out of the WPA jam which made his retention there impossible.

THE position he now occupies is the least important of all Cabinet posts—far less important, of course, than that of WPA Administrator which he relinquishes. But to justify the advance notices tentative plans have been formed to have Mr. Hopkins expand into a sort of super-labor peacemaker and otherwise

## How To Ease Rectal Soreness and Relieve Itching of Piles

If you are annoyed with the itching of piles or rectal soreness, you will be well pleased with the quick and pleasant relief the use of Ice Mint will give you. This cooling and soothing preparation quickly relieves the itching, eases pain and soreness and aids in healing the raw, sore spots. It seems the height of folly for any one to suffer this itching annoyance when a simple remedy, so easy to use, may be had at such a small cost. Ice Mint is highly recommended and is clean and pleasant to use. Try it. Any drug store can supply you.

avoid sinking into what might prove humiliating obscurity. They will not amount to much. Actually, Mr. Hopkins is the complete "Yes man," the most subservient whom the President has in Washington, which may account for the high favor in which he holds him.

IT has taken an Administration drive of major proportions to get him safely into the new job where his power is curtailed, his importance diminished and his usefulness to the opposition as a target decreased. But neither the strained tributes of the business stooges of the so-called Advisory Council, the "great American" adjectives of his jobholding colleagues nor the encomiums of his gifted chief can make of him a public official whom the harried businessman will trust or love. In the graphic words of an old-time politician, no businessman not wholly foolish "would ever go to sleep with his finger in Harry's mouth."

## SPARKING WIRE

Firemen were called to the home of Jacob Grossman, 423 Boyles avenue, around 3:30 o'clock Thursday afternoon, when a girl washing the floor splashed water against an extension cord which ran along the floor and thence to a mantle clock, causing the wire to spark. Firemen pulled the cord from the plug, removing any danger. There was no loss.

## Rowland Home From Capital

Captain Roger W. Rowland, newly appointed secretary of Property and Supplies in the cabinet of Governor Arthur H. James, arrived home Thursday to take care of a number of business matters before getting into the work of his new department.

While he is not unmindful of the honor which has been given him he has no delusions as to the job he is getting into. "It's a job of work," said he. "Little different than that of running a business. I know little of how the department has been handled in the past but as long as I am in charge it will be operated with the idea that it is a vast business dealing with the money of the people."

He will return to Harrisburg by the first of the week.

## Taylor Gets "Pretty Boy" Part In Latest Picture

By MILTON HARKER

(Copyright, 1939, International News Service)  
HOLLYWOOD, Jan. 20.—Just to show the inconsistency of the Hollywood scene, Bob Taylor, who has punched and roughed his way through three pictures costing \$3,200,000 in the last year to live down the "pretty boy" reputation, will be called "pretty boy" by the other actors all through his new picture, "Lucky Night." It starts tonight.  
Bob fought four men at once in "Three Comrades," took a terrific beating as a second-rate prize fighter in "The Crowd Roars" and staged two savage encounters with Wallace Berry in "Stand Up and Fight." So M-G-M is well satisfied the public knows Bob can really take it despite the fact his pan doesn't look like something rescued from the stove.  
That's why the studio is having the other actors kid his good looks in this new opus, which looks like it's going to be one of the most riotously funny pictures of the year. One of the chief kidders will be Myrna Loy, who plays an eternally lucky heiress who goes into the world to find love and happiness. She meets Bob, an unlucky de-

do-well gambler, in a bread line. That's where the story starts.  
Bob will have another battle in this picture. So will Myrna. She'll knock a man cold with a punch when she and Bob get into a free-for-all in a gambling joint.

Myrna has played in these screwball comedies before. It'll be a complete change of role for Taylor, who got called back from his New York vacation to go into the picture.

If you think it's going to be hot working on the jungle created for "Tarzan in Exile," just consider the fact it was built on the studio skating rink.

It had to be a good-sized jungle, so Director Dick Thorpe and his busy assistant, Dolph Zimmer, selected the largest spot they could find. This happened to be the rink. The water was drained and dirt laid on the freezing pipes.

Maybe it's the remembrance of the many hours watching 24 beauties skating there in "The Ice Follies" but the place still seems a little cool to go around in something akin to nakedness, which is the present state of the cast.

## Rescue 37 From Sinking Tanker In Middle Of Sea

(International News Service)

NEW YORK, Jan. 20.—Rescue in mid-ocean of 37 members of the crew of the disabled motor tanker "Jaguar," broken in two and at the mercy of mountainous seas, was disclosed Thursday in meagre radio dispatches received by Mackay Radio.

Shortly after noon, Mackay Radio was advised of the rescue, effected by the freighter Duala almost precisely in the middle of the Atlantic ocean, equidistant from New England and Europe.

Giving no details of the manner in which the tanker suffered its unique accident, the S. S. New Orleans sent the following radio report:

"Motor Tanker Jaguar broken in two approximately 35 north 46 west Wednesday night, S. S. Duala picked up seven of crew from forecastle Wednesday night and 30 of crew next morning from after part.  
"After part believed still afloat. Accident occurred suddenly. No radio call for aid sent."

## Wages-Hours Law Needs Changes

Administrator Andrews Says  
Some Simplification Steps  
Are Necessitated

(International News Service)  
WASHINGTON, Jan. 20.—The wages and hours law should be simplified, Administrator Elmer F. Andrews told a house appropriations subcommittee in hearings released Thursday.

Andrews also asked for a congressional definition of "area production." Under the law packing of fruit, vegetables and similar articles within the "area of production" is exempt from provisions of the act. Interpretation of this provision has aroused much dissension among canners.

"I think I would like to sit down and talk with the labor committees, because I think that first in importance is that the law be amended for simplification, but I do not think that the basic principles should be changed," said Andrews.

**Employees Need Protection**  
The administrator suggested that employers be protected against penalties for violating the law if he has given an advisory opinion that they do not come under its terms. While he now gives advisory opinion, he said, employers have no protection against a possible adverse court ruling.

Predicting that half the states will enact wages and hours laws this winter, Andrews said this would simplify the problem of border-line cases.

The house subcommittee was given estimates that 1,734,000 people were directly affected by the law. Andrews estimated that 300,000 persons affected by the law received less than 25 cents an hour when it went into effect and that 1,384,000 worked over 44 hours a week.

Miss Katherine Lenroot, chief of the childrens bureau of the department of labor, estimated that 50,000 children under 16 were employed in affected industries last fall. She added that a half-million between 16 and 18 be affected by prohibition against employment in hazardous operations.

### LOOKING FOR THE VERY FINEST CRACKER? THEN MAKE THIS EASY TEST!

We like folks to ask us: "Why should we insist on Premiums when we buy crackers?"

We'll tell you why. And you can make the test yourself.

**BREAK A PREMIUM IN HALF!**—Hear it snap with freshness? Not like an ordinary cracker! Premium Crackers are fresher because they are rushed from nearby ovens to your grocer in National Biscuit Company's own trucks.

**LOOK AT THE INSIDE!**—See how flaky and open it is? How tender and even textured? Extra shortening makes Premiums extra flaky. They are more thoroughly baked, too.

**TASTE IT!**—Catch that tangy, tingling flavor? Special salting gives Premiums a zestful flavor that makes everything you serve with them more delicious.

Buy Premiums—see if you don't like them better than any cracker of the same type you've ever tasted. Order Premium Crackers from your grocer tomorrow for the week-end!

**SUGGESTION OF THE WEEK!** Try this tomorrow. Put a plate of Premiums on the table with each meal. Watch the family go for them!

(International News Service)  
HARRISBURG, Jan. 20.—The Pennsylvania Motor Police and the State Department of Revenue will continue to operate under their present department heads, Percy W.

Assurances of cooperation were given both by Boardman and Foot, pending the confirmation of Sheriff William J. Hamilton of Philadelphia and Major Lynn G. Adams, it was said.

Governor James declared he is confident the senate will confirm his appointments within "a reasonably brief period."

## Peril Of Continuous Government Spending Is Cited By Babson

By ROGER W. BABSON  
Copyright 1939—Publishers Financial Bureau

BABSON PARK, Mass., Jan. 20.—"I am convinced that public spending can never be stopped!" This was the recent comment of an honest, far-sighted—but defeated—public official. A year ago, he was elected mayor of one of the nation's oldest cities on a "cut expenses" platform. He put constructive economies into force. They pinched the pocket books of this, that, and the other group. So, at the end of his term, pressure minorities defeated him for re-election. This man's conclusion, after a year's practical experience with public economy, is disheartening.

Vested interests are built up in public spending just as in power companies, railroads, and chain stores. Some pressure groups will fight just as hard to keep on spending as other pressure groups will battle to retain water rights, electric franchises, and mail contracts. In a Fascist state, public spending can be controlled and even halted. In a Democracy, it constantly increases unless voters are people of high character. I believe that current public extravagance is today the most immediate of all threats to our personal liberty. It is surely a greater menace than possible armed invasion by foreign dictators!

**Voters Ignorant**  
Behind our colossal spending is the woeful carelessness and ignorance of the average voter concerning public administration and our tax system. The "soak-the-rich" slogan of the politician has gone over with a bang. Only a small percentage of the voters realize that ultimately all taxes (except possibly inheritance taxes) are paid by the consumers of goods. Voters do not understand that all corporation taxes are handed along to them on retail price tags. They do not stop to think that real estate taxes are concealed in their monthly rent. My guess is that 75 per cent of the voters have no knowledge of the multitude of hidden taxes they pay!

The Washington government has spent \$62,000,000,000 in the last ten years. Barring only the World War, this equals the entire amount spent from the day George Washington became our first president until Herbert Hoover stepped into the White House! Yet, President Roosevelt has just indicated that another \$9,000,000,000 will be poured out in 1939-40. We are currently spending at the rate of \$18,000 per minute, or approximately \$50,000 since you began reading this article (nearly three minutes). I have always considered \$50,000 as a fair-sized estate. How can the government go on destroying 20 fortunes every hour, 500 every day, 180,000 every year?

**Government Supporting 25,000,000**

Last year, public spending, including not only the federal, but the state, county, and local governments, totaled \$17,000,000,000. This represented more than 25 per cent of the national income. Add up the number of individuals getting support from the government. My figures show 25,000,000. One person out of every six gets his livelihood from the government. There are only 51,000,000 workers who would be gainfully employed. This means that every private wage-earner is not only supporting his family, but another person on the public payroll!

**Nezi Chieftain Will Deliver  
Talk On January 30 Of  
World Wide Nature**

(International News Service)  
BERLIN, Jan. 20.—Reichsfuehrer Adolf Hitler today began work on the important statement on world affairs he will deliver when the Reichstag assembles on January 30 as the Nazi government took official cognizance of widespread revival of rumors that cabinet changes are contemplated.

The cognizance took the form of a sweeping official denial of the rumors by Dr. Otto Dietrich, Nazi press chief.

It was circulated through the official German news agency DNB, presumably after consultation with Hitler himself.

Replying to persistent demands for clarification of the situation after newspapers in Paris and London had resurrected old reports that Field Marshal Herman Wilhelm Goering is to be made vice-chancellor and Propaganda Minister, Dr. Joseph Goebbels deposed, Dr. Dietrich said:

"I am authorized to declare herewith that all current rumors are without foundation."

Still, if rich old families didn't go broke, where would the new-rich get ancient boxwood?

There is no suggestion anywhere in the inner circle of such changes in the Reich cabinet. The present personnel will not be changed on January 30, nor are any cabinet alterations anticipated.

Just for illustration, let us take a family which earns \$37 a week, \$150 a month, or \$1,800 a year. Studies show that such a family spends about \$10 per week, or \$500 per year, on food. Of this, 70 cents per week, or \$35 per year, represents hidden taxes. Each year these taxes add over \$5 to the milk bill, \$9 to the butcher's statement, \$5 to the butter and egg man's bill, \$5 to the baker's charges. On every roast of beef there are 127 hidden taxes; on every loaf of bread, 53 unseen taxes!

The "Untaxed" Taxed  
The average family probably spends \$30 per month for rent. Of this amount, \$7.50 per month, or \$90 per year, is for local taxes. Each year the automobile eats up \$175 of the family's income. In this amount is \$35 for the tax-collector. The same official, through 79 separate taxes, takes a \$5 cut out of a \$80 suit. With 143 different taxes, he grabs fifty per cent of the price of a package of cigarettes. This newspaper is paying 83 taxes you readers know nothing about. Every movie ticket carries 61 hidden donations to the public treasury. And when someone dies, these invisible taxes hit a record high—there are 157 of them!

**\$230 To Tax-Collector**  
All told, this average family—which owns no real property and thinks it pays no taxes—forks over \$230-\$240 of its annual income of \$1,800 for hidden taxes. This represents one-seventh of the total income. It means that for every six days the family bread-winner works for himself, he works one for the tax-collector. (In the case of very wealthy people the reverse is true; they work one day for themselves and six for the public). The significant point is that these unseen taxes are rising every year. In 1933, the hidden tax-collector forced the wage-earner to work only one day in ten. How soon will he be working one day in three?

Yet, the members of this family kid themselves into thinking that they pay no taxes. The dismissal of a prominent public figure by such a comment as this: "Well, let 'em spend, Rockefeller can afford it!"—Sure, Rockefeller can, but can they? In this connection, let me say that our people are now forced to fill out 135,000,000 tax and other government forms per year. Certainly, these are not all filled out by Rockefeller! To pick up over \$14,000,000,000 in taxes in 1938, it took the combined efforts of 175,000 separate tax agencies with probably over 1,000,000 tax employees!

**Half The Bills Unpaid**  
Yet, with all our taxes, we are only paying half the current cost of government! The other half is being borrowed and left for our children to pay. The Federal government has borrowed \$24,000,000,000 in the last ten years. (How much money state, county, and local governments have borrowed, I cannot say.) The interest on this new debt alone is \$500,000,000 a year, or more than the government spent in any year prior to 1900, except during the Civil War. Yet, there are no convincing signs of a let-down in this wild orgy of spending! Despite the economy talk on Capitol Hill a balanced budget is further off today than ever!

A year ago, I said that our tax system must be changed. I outlined ten simple, sensible reforms. Here they are, revised to date:

1—Broaden the income tax base.  
2—Tax churches which are not open daily.  
3—Cut capital gains taxes to encourage employment.  
4—Tax new government securities.  
5—Tax public employees the same as everyone else.  
6—Put social security on a "pay-as-you-go" basis.  
7—Clamp down on special local taxes.  
8—Lower real estate taxes.  
9—Reduce public spending drastically.  
10—Collect taxes more economically.

Today, my guess is that not one of these reforms will be made. In fact, spending may reach an all-time peak this coming year. Yet, the depression "emergency" is now long passed. Only a nationwide educational campaign by newspaper, radio, school and college can make the voter tax-conscious.

**America Headed For Chaos**  
I am bullish on business this coming year. In fact, I feel that we may even have a boom in 1940. But, unless America is swept by a spiritual revival, the day of reckoning is coming. Four years ago, I wrote that unless spending was curbed, America was headed for the rocks. The only change in my opinion today is that we are nearer the rocks. Unless you—the voters—care enough for your personal liberty to have the courage to put the spendthrifts, grafters, wasters, and parasites out of public office, the United States is headed for chaos and Democracy is doomed for a generation to come!

## Japan Alarmed Over Plans To Fortify Guam

Major Naval Base Would Be Established On Small U. S. Island

(International News Service)  
TOKYO, Jan. 20.—Proposals to fortify the island of Guam as part of a huge United States defense system have caused great concern in Japan, a spokesman for the Tokyo foreign office said today.

The spokesman's remarks followed the action of President Roosevelt in approving a bill calling for a chain of air, submarine, destroyer and mine bases extending from Alaska to Rhode Island via the Panama Canal. The measure calls for construction of a major naval base at Guam.

Unfriendly Act  
Guam, said the spokesman, is far from the United States but close to Japan's mandated islands, which Japan under international agreement is unable to fortify. He added: "In the light of Japan's policy of defense and non-aggression, fortification of Guam would constitute an unfriendly gesture and unnecessary irritation."

Rear Admiral Kanazawa, spokesman for the Japanese admiralty, reiterated the remarks of the foreign office spokesman and declared fortification of Guam would constitute "not only an unfriendly but a menacing act against Japan."

"In view of the fact that the fundamental principle of Japan's naval policy is non-menace and non-aggression," he declared, "we cannot but regard the situation with grave concern."

## Farm Loan Group Meets Next Week

Stockholders Of National Farm Loan Association To Have Annual Meeting

Farmer members and their wives will renew acquaintance with their friends and spend about three hours together in reviewing the activities of the Lawrence County National Farm Loan Association at the annual meeting of stockholders to be held in the council chamber, East Washington and East streets, New Castle, at 1:30 p. m. on January 27, 1939, President H. L. McCurley announced today.

The statement of income and expense, and the statement of condition of the association will be presented. Directors will be elected to the board and other business will be transacted. "This is the best way for the members to keep informed concerning the affairs of the association," Mr. McCurley said.

Invitations have been sent to county and home demonstration agents, vocational agricultural instructors, representatives or production credit associations and other agricultural agencies. "Annual meetings afford members an opportunity to become better acquainted and learn many interesting facts," Mr. McCurley declared, saying that "the association hopes to make this one of the best meetings ever held." Farm women are especially invited.

## Believe Powerful Woman Was Killer At Indianapolis

(International News Service)  
INDIANAPOLIS, Jan. 20.—Detectives Thursday said they believed a powerful woman, who is left-handed, probably was the hammer killer of Mrs. Carrie Leah Romig, 55, slain in her apartment on Tuesday night. Meanwhile the officers sought to locate \$15,000 worth of jewels owned by the victim. They said the theft of these gems might have been the motive for the murder, and obtained permission to open a safety deposit box maintained by Mrs. Romig to ascertain if they were there.

Police swung over to the theory that the slayer was a woman when they found a brilliant red handkerchief on the floor. They learned from her husband, Harold Romig, 28, that Mrs. Romig had no handkerchief of that type. The manner in which the bodies were struck with the claw-hammer, which lay nearby, led the detectives to deduce the murderer was left-handed.

# Trans-Atlantic Passenger Air Line Planned

Immediate Start Of Air  
Line Pictured. France  
Gives Port Permission

(International News Service)  
WASHINGTON, Jan. 20.—Pre-  
saging immediate start of an Amer-  
ican trans-Atlantic passenger air  
line, the state department today an-  
nounced that an agreement has  
been reached with the French gov-  
ernment for use of French port fa-  
cilities.

A permit has been granted by  
France for the operation of two  
American air lines across the At-  
lantic from the United States to  
France.

## Out Of Picture

It was understood that the ar-  
rangement leaves Great Britain out  
of the picture and that the United  
States, within the next few weeks or  
as soon as weather permits, will es-  
tablish the world's first trans-  
Atlantic air line.

The two main American con-  
tenders for the privileges, it was  
learned, are Pan-American Airways  
and the American Export Line.  
Pan-American, it was learned, has  
three four-engine super clippers  
ready to hop off within a short  
time. The present plan is for an  
air line extending from Port Wash-  
ington on Long Island to the Azores,  
to Portugal and thence to Mar-  
seilles, France.

It is understood that four trips  
weekly are projected as soon as  
weather permits.

# Deny Reshuffling Of Nazi Officials

Hitler Seeks To Smooth Fric-  
tion Between Nazi Party  
And German Army

(International News Service)  
LONDON, Jan. 20.—Official Ger-  
man denials today failed to put an  
end to rumors that Reichsfuehrer  
Adolf Hitler is contemplating a re-  
shuffle of the Nazi hierarchy.

The latest reports said that the  
Fuehrer's plans were based, not up-  
on Propaganda Minister Paul Josep-  
h Goebbels' alleged fall from  
grace, but upon a more important  
factor—namely, a determination  
to ease the supposedly constant fric-  
tion between the German army and  
the Nazi party.

This friction, the reports said, was  
said to have been aggravated by a  
reported proposal to increase the  
elite Black Guard Storm Troops  
25,000 men and equip them with  
heavy arms, including tanks and ar-  
tillery, a move vigorously opposed  
by the Reichswehr.

The rumors suggested that Field  
Marshal Hermann Goering, who is  
both an army and a party man,  
would be able to smooth out the  
difficulties by taking over the posts  
of vice chancellor and war minis-  
ter.

It was said that Hitler's recent  
reception of army officers at the  
Fuehrer house was for the purpose  
of giving them a "sales talk" on the  
army's duties to the state.

## Adams Declares Police Merger Proper Action

Says Separation Now Of  
State Forces Would Be  
"Backward Step"

(International News Service)  
HARRISBURG, Jan. 20—Report-  
ed as favoring separation of the  
state police and highway patrol  
again, Major Lynn G. Adams  
appointed police commissioner by  
Gov. Arthur H. James on Thursday  
insisted that the merger of the two  
units "was the right thing."  
In a surprise announcement,  
Adams, whose appointment has not  
been confirmed by the senate, de-  
clared that to separate the units  
again would be a "step backward."  
He emphasized, however, that the  
merger "wasn't carried out right,"  
but said he could tell "a little more  
about it" after he took command.  
"Combination of the two forces,"  
Adams asserted, "was the right  
thing, but it wasn't carried out  
right."  
Should Cooperate  
"When there has been a crime  
committed, as a robbery, there

ought to be coordination that makes  
as many men as possible available  
to the local police."  
"There ought to be more coordi-  
nation of all the police forces thro-  
out the nation."  
The new commissioner, who be-  
gan the Earle administration as su-  
perintendent of police only to resign  
when he was subordinated in au-  
thority to Admiral Percy William  
Poote at the time of the merger,  
termed himself the "daddy" of the  
highway patrol that received so  
much credit for the success of Gov-  
ernor Earle's highway speed cam-  
paign.

### Much Impressed

"I am impressed by the saving  
in lives," Adams went on. "I be-  
lieve it was due primarily to vigor-  
ous enforcement of the speed laws.  
I recommended that four years ago."  
More than 1,000 lives were be-  
lieved saved during 1938 by stringent  
enforcement of the 50-mile speed  
limit. Ninety-day license suspen-  
sions were invoked on almost 7,000  
motorists. Accidents on the state's  
highways decreased approximately  
46 per cent.

Adams said he wanted to study  
the results of the highway speed  
war more closely before making any  
additional statements concerning it.

## Pittsburgh Man Is Luncheon Speaker

Thirty-five members of the New  
Castle branch of the Pittsburgh Life  
Underwriters' association heard  
Barney Lipka, Pittsburgh, second  
vice president of the Pittsburgh Life  
Underwriters' association, speak on  
"Your Business and Mine" at a  
luncheon yesterday in The Castles-  
ton.

E. M. "Ted" Aiken, executive sec-  
retary of the Pittsburgh organiza-  
tion, also spoke briefly.

William J. Stafford, past presi-  
dent of the local unit, urged mem-  
bers to seek additional members for  
the branch.

## FATHER GIVEN FOURTEEN YEARS IN BABY'S DEATH

(International News Service)  
CHICAGO, Jan. 20—Pleading  
guilty to manslaughter, a young  
father who slapped his baby son  
to death today began serving a one  
to fourteen year prison term.  
The man is Robert Koch, 24, who  
had confessed to police that he  
struck the 4-months-old child be-  
cause its crying interfered with his  
hearing a radio program.  
The judge asked if Koch's 22-  
year-old wife, Marcia, intended to  
forgive him.  
"She doesn't want anything more  
to do with him," said the prosecu-  
tor.  
"I don't blame her," said the  
judge.

## Dr. Dafoe's Column On The Quintuplets And The Care Of Your Children

Copyright 1938, King Features Syndicate, Inc.

### HOW WE KEPT OUR QUINTS ALIVE

Yesterday I began to tell you  
something of the method of feed-  
ing premature children, by telling  
of our experiences in feeding the  
Quintuplets during the early days  
of their life.

When the children were five days  
old we stopped feeding them with  
the eye-dropper. That was a break  
for everyone, especially the nurses,  
for it took about 20 minutes to feed  
each child this old way. And feed-  
ings had to be made every two  
hours.

As I say, when they were five  
days old we switched to a Breck  
feeder. This is a glass barrel with  
a nipple on one end and a rubber  
bulb on the other. These feeders are  
used for all children who are small  
and weak, whether they are prema-  
ture or not. That is because they  
haven't the strength themselves to  
nurse long enough to furnish their  
needs.

In this method of feeding, it is  
made easy for the liquid to enter the  
stomach. Of course, if you force  
too much, vomiting and choking  
will take place. Therefore, it must  
be given skillfully. You see the only  
way to increase their strength is to  
feed them plenty of sustaining food.  
Large hospitals sometimes achieve  
this same result by pouring milk  
into the stomach directly through a  
tube. This method is called "gav-  
age," but we managed to avoid do-  
ing this. This sometimes causes  
other troubles, and I had enough  
just then.

In caring for premature children,  
the important thing is to give the  
child complete rest. Don't handle  
the child any more than you ab-  
solutely have to. Just see that he  
has the proper amount of warmth,  
correct humidity and diet, and let  
him alone. Nature will do the rest.

Remember, premature children  
come into the world before they are  
really ready for it. In the case of  
the Quints, they were two months  
premature, and we had to nourish  
every spark of life in them in order  
to produce a continuous function  
of the various systems of the body  
machine. For the first few months  
we watched those babies every min-  
ute of the day and night, and we  
gave them nourishment as often as  
we could. That was the only thing  
we could do—give them strength to  
fight their battle for life.

I'll never tell you how often one  
or more of them—Marie most often  
—looked as though they were gone.  
We would see them going blue; it  
looked as though heart action had  
failed and that the lungs had col-  
lapsed. In those crises, we adminis-  
tered a few drops of rum, and every  
time they rallied.

I remember how I was criticized  
by some cranks for giving them  
rum. Some wrote me demanding  
why I hadn't given brandy. Well,  
my answer was simple enough—we

didn't have any. Money was pretty  
scarce in those days; brandy was  
expensive, rum was cheap—it was  
all I could afford. But the great  
thing about it is that it worked.

At the end of the first week, we  
were able to substitute a better  
stimulant than either brandy or  
rum. This was a gas mixture—95%  
oxygen, 5% carbon dioxide. We fed  
it to the children through an ordi-  
nary inhalator and a reducing valve.  
Up to this time this method of  
stimulant hadn't very widespread

## Reject Bid By Japanese For Raw Materials

Would Like To Have Developed Iron Deposits In Philippines, For Chinese Campaign

(International News Service)

(Copyright, 1939)

MANILA, P. I., Jan. 20.—A desperate bid by Japan, sorely in need of raw materials in her Chinese campaign, to obtain permission to develop the huge Surigao iron deposits in the Philippine Islands, has been rejected flatly by the commonwealth government, International News Service learned today.

The Japanese government, it was revealed, proffered coking coal from the fields it has captured in North China, in exchange for the iron ore.

Hope For Developments

While the Philippines need coal for railroads, steamships and contemplated industrial projects, the government was unwilling to aid in making Japan's war with China "self paying" it was understood.

The vast Surigao deposits, on the northern tip of Mindanao Island, have been termed "among the world's richest" by geologists.

The commonwealth now hopes to interest large American Steel Companies in development of the deposits. Foster Bain, former official

of the United States Bureau of Mines and now President Manuel Quezon's chief mining advisor, recently visited Japan regarding Nippon's offer, and is expected to go to the United States soon on a similar project.

## Honor Safe Drivers Of Telephone Company

HOWARD W. HUBER

KENNETH L. LOCKHART

JOHN B. MCCONNELL

NICHOLAS F. ROHRER

With more than a decade of safe driving behind them, 32 telephone men from the New Castle district were honored last night as the Bell Telephone 100,000 Mile club convened for its second annual meeting at The Gastleton hotel.

Judge Braham Speaks  
Honorable W. Walter Braham, judge of the court of common pleas of Lawrence county, was the principal speaker. He commended the 100,000 Miles for their contribution toward greater safety on the highways.

"The law governing of what constitutes safe driving has been developed from what constitutes the general standard of negligence," Judge Braham asserted.

"Society has set up a standard to which all must conform. It is not a standard perfection, but shifts and changes with circumstances," he said. "This standard has been broadened by years of experience until it covers every phase of driving and what constitutes safety in driving. The regulation to use due care under the circumstances follows the driver everywhere he goes on the highway."

vice president and general manager of the telephone company, presented awards to the members and explained that the Bell Telephone 100,000 Mile club is dedicated to safe driving and is composed of telephone men who have operated Bell vehicles for at least ten years without being responsible for an accident.

John B. McConnell of Aliquippa, Kenneth L. Lockhart of New Castle, Nicholas F. Rohrer of Rochester and Howard W. Huber of Sharon qualified for membership during 1938 and were admitted to the club last night, while 28 others, who are charter members of the club, received special awards for adding another no-accident year to their records which now extend over a period of 11 or more years.

Mr. Chesterman pointed out that with the addition this year of more than 100 new members in Pennsylvania and Delaware who qualified during 1938, the 100,000 Mile club now has a membership of 600 Bell drivers in the two states. Many of the older members of the club have gone 15, 20 or 25 years without an accident, driving in all kinds of weather.

"You men have contributed in no small degree to the outstanding 1938 safety record of this commonwealth. Last year, according to highway authorities, there were a thousand fewer lives lost from traffic accidents than in 1937. That's a record of which we may all be proud," Mr. Chesterman declared.

Mr. Chesterman called attention to the scores of younger men in the company who operated their cars without an accident during 1938 and are well on their way toward qualifying for membership in the club.

Telephone officials stressed that the safe operation of Bell vehicles has long been one of the major

phases of the telephone company's comprehensive accident prevention program which has been carried on continuously for more than a quarter of a century.

Charles A. Bolen, district plant superintendent here, was chairman of the meeting, and Edwin M. Clark of Pittsburgh, general plant manager, welcomed the members. Other Bell officials and employees present at the meeting were: W. M. Dickson, division plant superintendent; F. E. Ferguson, division construction superintendent; D. C. MacKeown, division safety supervisor, and C. S. Bentley of the Bell Telephone Magazine.

Representing the press in the local district were C. B. Lantz and A. W. McDowell of the Sharon Herald and Charles E. Allen of The News. After the speaking program had been concluded, a safety film was shown, along with some comic films by Ray Luther of Pittsburgh.

After years of marriage, a considerate husband doesn't try to be affectionate. Unusual attentions always embarrass a lady.

### How Women in Their 40's Can Attract Men

Here's good advice for a woman during her change (usually from 38 to 42), who fears she'll lose her appeal to men, who worries about hot flashes, loss of pep, dizzy spells, upset nerves and moody spells. Just get more fresh air, 5 hrs. sleep and if you need a reliable "WOMAN'S" tonic take Lydia E. Pinkham's Vegetable Compound, made especially for women. It helps Nature build up physical resistance, thus helps give more vivacity to enjoy life and assist calming jittery nerves and those disturbing symptoms that often accompany change of life. Pinkham's is WELL WORTH trying.

## Ice And Mother Return By Train

Weather Conditions Prevent Taking Off At Allegheny County Airport

As a contrast to the fine weather in Florida, William Ice and his mother, Mrs. W. P. Ice, of Boyles avenue were forced down at the Allegheny county airport because of the weather conditions. Ice was ready to return to his home here Thursday, when he was informed by the authorities that he would not be permitted to take off.

Next best thing for the Ice family, mother and son, and little German pincher pooch, was to board a train. They arrived home about 1:30 o'clock Thursday afternoon, climaxed their wonderful trip to Miami, Fla., via the airlines.

At a rough estimate of the mileage travelled, Ice stated that he flew approximately 3,500 miles since leaving New Castle on New Years Day.

After returning here, Ice was more than glad that he had not flown back. Out at the New Castle airport the snow was badly drifted over the field, and he would have found difficulty in bringing his plane to a safe landing.

Ice expects to return to Pittsburgh just as soon as the weather breaks and return his plane to New Castle, and complete the last few miles of the long journey by air.

Mrs. Ice, who accompanied her son on the entire trip, is 64 years of age, and this was her first time to fly in an airplane. She stated that it was a wonderful trip and that she enjoyed every minute of it.

She also added that she never imagined that flying was such a pleasant experience, and that she would be in her son's plane as much as possible in the future.

## Error In Checking To Bring Revocation

City Council To Award New Contract For Cement At Meeting Monday

Owing to the rush to get the Huron avenue storm sewer project under way and materials on hand, an error has been made when bids were checked yesterday. It is revealed. As a result the cement award given the New Castle Feed, Coal & Supply Company will be revoked Monday and a new contract let.

In the past, most bids for certain items have been identical and while going hurriedly through the bids most of which were \$2.31 per bar-

rel the recommendation committee failed to note that the bid of the New Castle Feed, Coal & Supply company was \$2.41 a barrel for 358 barrels.

The error was discovered today and council has decided to revoke the contract Monday and give out a new contract to the successful bidder.

### Secretary Perkins Seeks To Act As Peacemaker

 By WILLIAM S. NEAL  
 International News Service Staff Correspondent  
 (Copyright, 1939)

WASHINGTON, Jan. 20.—As lines were drawn today for a battle to revise the Wagner Labor Act, Secretary of Labor Frances Perkins assumed the role of "good will ambassador" of the administration in dealing with congress on labor questions.

In a friendly gesture, Miss Perkins invited members of the house labor committee to confer with her at a luncheon next week. Members of the senate labor committee are also expected to attend.

While the proposed get-together was described merely as a social gathering, the secretary who surrounded the invitation created keen curiosity among members of the labor committees.

Miss Perkins already has disclosed her efforts to bring peace between the American Federation of Labor and the Congress for Industrial Organizations and is prepared to militantly defend basic principles of the Wagner Labor Act. There have been rumors, however, that Miss Perkins might sanction some changes in the law to quell criticism of the law and the labor board.

The secretary, it was reported, is anxious to establish cooperative relationship with the congressional committees in dealing with the anticipated bitter struggle over the labor law.

# NEW CASTLE HIGH AND ALUMNI TO PLAY TONIGHT

## Benefit Game To Draw Big Crowd

Proceeds To Help Defray Expenses Of Injured Junior High Football Boys

Washington And Franklin Tangle In Preliminary, Free List Suspended

New Castle High School basketball team, idle in Section 3 tonight, will play the New Castle High Alumni team in a benefit game at the Arena floor.

The Alumni team will have a galaxy of former stars in the lineup, most of them now members of the Boosters team. The Alumni quintet will be coached by Francis "Slim" Wainio, and will contain such stars as Tom Carey, "Pop" Adams, Eddie Strausbaugh, Elmer Wainio, Francis Wainio, Emil Grommes, Chinkie Dutkin, Johnny Carik, Dal Mumford, Eddie "Cash" Koszela, Henry Koszela, Ryglinski, Marion Sniezek and others.

The New Castle high team could not have picked a better opponent for their off-league night than the Alumni, as the former stars will no doubt give the present day boys a basketball lesson tonight that will help them in the home-stretch drive in Section Three.

Head Coach Phil Bridenbaugh will start his customary five: Clark Gennoek, Bombyk, Wenda and Lauro. This combination has been giving a satisfactory performance so far this year and there is no reason to break the quintet up. Davey Greer, Ernie Adamo and Vince Kelley will see action in utility roles.

TWO GAMES SATURDAY There will be two games on Saturday at the Senior High floor with the Indies Reserves playing the Tiger Reserves in the preliminary game and the New Castle Orioles in the second game.

It is hoped that a goodly sum can be raised to help the Music Council clean up the balance of the amount on the Croton School band uniforms.

## Rambling Around World Of Sports

A touch of local sport fodder . . . In my book, Ellwood City high gets the toughest break of any club in the W. P. I. A. L. The end of the first semester also means the end of Tommy Jones, Bob DeBartoli, Walter Robuck, E. Bell, Myron Gelbach and Jack Snare, all stellar cage performers . . . Eddie "Flash" Koszela, Falcon forward star, is living up to the reputation of being one of the most adept courtiers in the city. Against a Youngstown team a few nites back, he added nine field goals to his collection of two masters . . . Francis "Slim" Wainio has returned to the hardwood following illness.

Pick-ups along the sport trail. Danny MacFadden, ace moundsman of the Boston Bees, as well as one of the most polished apple flingers in the majors, was a former hockey player and a coach . . . The Tubers were forced to quit selling tickets way ahead of game time. The athletes with the bushes under their chins, come here next week to face the Boosters . . . Uniforms worn by members of the New York Giants professional football team, during the last season, will be sent to the Attica prison where the inmates compete in a four team circuit.

Odds and ends . . . Market Gives Good Account Spell Of Winter To Stick Some Profit-Taking

By LESLIE GOULD

International News Service Financial Writer

NEW YORK, Jan. 20.—The stock market gave a good account of itself today, holding around previous closing levels in mixed dealings despite the unsettled weather and the spell of winter to stick some profit-taking.

Berlin advices indicated that the Boerse was not affected by the removal of Dr. Schacht, but German marks dropped rapidly in the foreign exchange market. Free marks slumped to the lowest levels since the September war crisis, while registered marks tumbled almost 50 points.

The market was generally higher at the opening, but encountered some profit-taking, which stalled efforts to extend the rally of late yesterday. Many pivots slipped behind minus signs, but losses were limited and several representative stocks held on to modest advances.

Steels were about the softest group. U. S. Steel dipped almost a point, while Bethlehem, Crucible and Youngstown Sheet & Tube gave up gains.

Chrysler and General Motors were among those to display evening tendencies. Standard Oil of N. J. United Aircraft, Anaconda, DuPont, Union Carbide and Montgomery Ward also were lower.

Among the stocks to maintain plus signs were American Telephone, which again set a new 1939-38 peak on a rise of better than a point. Westinghouse, Allied Chemical, Case and Goodyear and Santa Fe gained a little ground.
